

MEDICAL PREPAREDNESS & RESPONSE TO BOMBING INCIDENTS

MGT-348 • Per-233

This course addresses medical preparedness for and response to blast effects through a combination of lectures, small group activities and tabletop participant exercises. Participants completing this course will gain an enhanced understanding and awareness of issues and considerations relating to bombing incidents.

Content areas include identification of targets, explosives characteristics, pre-attack indicators, pre- and post-detonation response, bombing injuries, security, and resource management.

This course represents a cooperative effort between New Mexico Tech's Energetic Materials Research and Testing Center (NMT/EMRTC) and the Texas Engineering Extension Service's National Emergency Response and Rescue Training Center (TEEX/NERRTC), a member of The Texas A&M University System.
